

proflex®
HARDCOURT

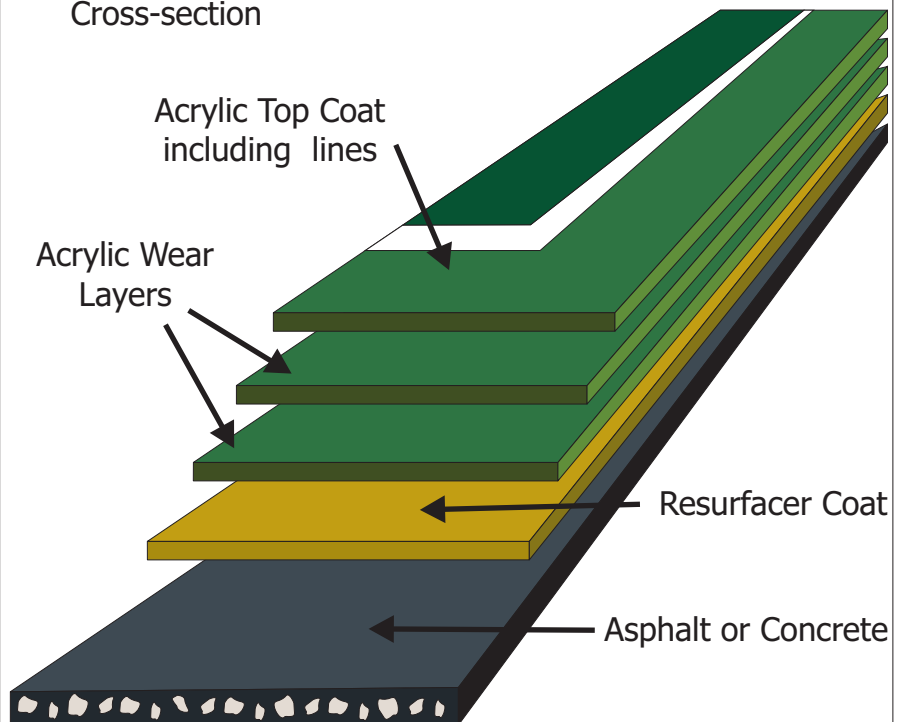

HIGH PERFORMANCE HARD COURT ACRYLIC SURFACE

Proflex® Hardcourt is an economic court that is a favourite with many players. The system has no cushioning layers but has appearance and durability characteristics that match those of the other surfaces in the **Proflex®** and **Poraflex®** range of products.

The **Proflex® Hardcourt** acrylic system comprises one resurfacer coat and three hardwearing colour and texture coats.

Proflex® Hardcourt
Cross-section

proflex®
HARDCOURT

Proflex® Hard Court coatings can be adjusted to meet the slip resistance requirements for other sports such as netball, basketball and five-a-side. This makes it the ideal surface choice for Multi Use Games Areas (**MUGAs**).

All materials used in the formulation and installation of these products are environmentally friendly.
